CDD 10-70

Electric pedestrian stacker (1,000 kg)

The CDD 10-70 is the entry-level model of the electric pedestrian stackers. Intended for easy applications in the internal material flow and thanks to its compact design, it is especially suited for operations in narrow spaces. Fitted with a double telescopic mast, the truck allows for the easy storage and retrieval of pallets. The maintenance-free battery in combination with an on-board charger as part of the standard version ensure particularly easy handling.
